OFFERING CIRCULAR

ON THE PUBLIC ISSUANCE OF HUNGARIAN GOVERNMENT BONDS

**THE BELOW OFFERING CIRCULAR HAS BEEN PREPARED ON THE BASIS OF
THE REQUEST OF THE ISSUER FOR THE PURPOSE OF PROVIDING
INFORMATION TO THE INVESTORS ON THE TERMS AND CONDITIONS OF
PLACEMENT AND TRADING**

Budapest, 1st June 2018
Released: on 25th May 2018

GENERAL INFORMATION AND ISSUANCE AUTHORISATION

The Minister for National Economy in the name of the Hungarian State (hereinafter: the “Issuer”), as the minister responsible for public finances, issues government bonds pursuant to the authorisation of the act on the annual central budget of Hungary and the authorisation of the Act CXCV of 2011 on Public Finances, in order to finance the central budget deficit and the renewal of debt of central subsystem of public finances. The Minister for National Economy performs this task through the Government Debt Management Agency Pte Ltd. (hereinafter: “ÁKK”) in accordance with the Act CXCV of 2011 Economic Stability of Hungary.

Pursuant to the legal authorisation above as well as the authorisation granted in the frame of the annual financing plan, which is the Financing Plan of 2018 upon the entry into force of the Offering Circular, approved by the minister responsible for the public finances on the basis of the Act CXCV of 2011 on Economic Stability of Hungary, the placement of the Hungarian Government Bonds takes place based on the applicable decision made by the Financing Committee of ÁKK.

This offering circular (hereinafter: the “Offering Circular”) contains the general terms and conditions of placement and trading of government bonds to be issued at public auctions in HUF in Hungary by the Issuer in accordance with the relevant provisions of Act CXX of 2001 on the Capital Market (hereinafter: the “Hungarian Government Bond”).

This Offering Circular does not apply to the Treasury Savings Bill II. government bonds, which are sold by ÁKK through the network of postal service points of the Hungarian Post Ltd. and on the basis of and in accordance with the provisions of a specific offering circular. Furthermore, this Prospectus does not apply to the Bonus Hungarian Government Securities, the Premium Hungarian Government Securities and 2-year Hungarian Government Securities which are placed on the market by ÁKK through the network of the dealers having concluded an agreement with ÁKK, as well as to the baby bonds, which are placed through the Treasury offices of the Hungarian State Treasury, and on the basis of and in accordance with the provisions of a specific prospectus.

This Offering Circular is not to be considered as a prospectus or base prospectus under Article 1 (2) (b) of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading and amending Directive 2001/34/EC (hereinafter: the “Prospectus Directive”) and this Offering Circular is not covered by the Prospectus Directive.

This Offering Circular has not been presented to any securities supervisory authority other than the Hungarian securities market supervisory authority (National Bank of Hungary, hereinafter: “NBH”).

The laws of certain countries may limit the distribution of this Offering Circular, or the offer for sale, sale, marketing of the Hungarian Government Bond.

The Issuer and ÁKK have not and will not initiate any proceeding for the authorisation of the public offering of the Hungarian Government Bonds or the publication of this Offering Circular in a country other than Hungary, which provides for an authorisation obligation or other similar restrictions for this purpose.

The Issuer and ÁKK are not responsible for this Offering Circular being lawfully distributable or publishable outside of Hungary, or the Hungarian Government Bond(s) being lawfully advertisable, offerable - directly or indirectly - for acquisition or sale/purchase/exchange under the laws of any other country or in accordance with the exceptions specified by such laws.

Therefore the Hungarian Government Bonds have not been and will not be registered under the Securities Act of 1993 of the United States of America (hereinafter: the “U.S. Securities Act”) and in accordance with the tax laws. The Hungarian Government Bonds are offered outside of the United States of America - in accordance with the so-called Regulation S of the U.S. Securities Act - therefore - thus, except for certain transactions being an exception to the registration requirements of the U.S. Securities Act - the Hungarian Government Bonds may not be offered, sold or transmitted within the United States of America and to American citizens. The Dealers are to undertake to sell the Hungarian Government Bonds outside of the United States of America in accordance with the relevant provisions of the U.S. Securities Act. The definitions used in this section comply with the definitions used in the relevant provisions of the U.S. Securities Act.

There are also restrictions in the United Kingdom in connection with the offer and the sale of the Hungarian Government Bonds. As this document has not been approved by the authority specified in the Act of 2000 on Financial Services and Markets of the United Kingdom (hereinafter: the “Financial Services and Markets Act”) in accordance with such Act, therefore in the United Kingdom Hungarian Government Bonds may only be offered in accordance with the Financial Services and Markets Act and this Offering Circular may only be distributed in accordance with the above Act.

The Issuer orders the readers of this Offering Circular to make inquiries regarding such restrictions and to observe them. If the offer for sale of the Hungarian Government Bond is unlawful in any country, or the purchase or acquisition of the Hungarian Government Bond by any person is against the law, this Offering Circular may not be accepted as an offer and may not be used for the purpose of an offer in connection with the sale of the Hungarian Government Bond.

The Issuer and ÁKK have not authorised anyone to provide information or to make any statement in addition to the content of this Offering Circular or the material approved by the Issuer or ÁKK for this purpose. If that would nevertheless happen, it should be regarded as the Issuer or ÁKK has not approved such information or statement.

All references to forint contained in this Offering Circular concern the official currency of Hungary.

THE PURPOSE OF PLACEMENT

The sum flowing from the placement to the respective account of the Issuer is intended to serve the partial financing of the central budget deficit and the renewal of the government debt. The Issuer enables the participation in the placement in order to channel the savings into the government debt financing.

GENERAL TERMS AND CONDITIONS OF PLACEMENT

The characteristics of Hungarian Government Bonds

Hungarian Government Bonds are registered securities issued in accordance with Government Decree No. 285/2001 (XII.26.) on Bonds.

The Hungarian Government Bond represents a direct, general and unconditional undertaking of the Hungarian State to pay the face value and the pre-set interest (or its other appurtenances) of the government bond in the specified time and way against the payment of the offering price, or in case of an exchange auction against the transfer of the government bond(s) to be transferred to the Issuer in exchange for the Hungarian Government Bond.

The debt incorporated in the Hungarian Government Bond is part of the government debt. The payment of the interest and the face value of the Hungarian Government Bond is charged to the central budget and the debt service expenses of the central budget. Claims against the Issuer based on the Hungarian Government Bond do not lapse.

Purchasers and transfer of Hungarian Government Bonds

The Hungarian Government Bond may be purchased and transferred by natural and legal persons, other entities without legal personality.

The Issuer reserves the right to restrict the acquisition or the transfer of certain series of the Hungarian Government Bonds. If the Issuer exercises such right, it prepares and publishes a specific offering circular for the placement of such series.

Non-residents may acquire and transfer the Hungarian Government Bond in accordance with the effective foreign exchange laws and the possible restrictions of the Issuer.

The Issuer intends to comply with the laws and regulations prescribing the issuers to define the target market of investors and, within such market, the target group of investors when defined the group of persons entitled to purchase Hungarian Government Bonds as set forth above, as extensive as possible and without limitation, in accordance with the fact that the investors, interested in mid- and long-term investments which – stemming from the character of the Issuer – have low risk, are the targets of the Issuer.

The effective foreign exchange laws apply to the payments by or to the foreign exchange non-residents in connection with the Hungarian Government Bond.

In this respect the laws of other countries may also include restrictions, therefore the Issuer orders the readers of this Offering Circular to make inquiries regarding such restrictions and to observe them.

Issuance and face value of Hungarian Government Bonds

Hungarian Government Bonds are issued as dematerialised securities under the authorisation of Act CXX of 2001 on the Capital Market (hereinafter: the “Capital Market Act”). If the Issuer issues printed Hungarian Government Bonds, it prepares a specific offering circular on that.

The face value of the Hungarian Government Bonds is HUF 10.000, that is ten thousand Hungarian forints.

THE METHOD OF PUBLIC OFFERING

The Hungarian Government Bond is sold through auctions, on the basis of which the consideration of the issued Hungarian Government Bond(s) shall be performed by paying money or by the transfer of right of ownership (free and clear of all suits, claims and encumbrances and any other restriction) of determined pieces of the previously determined series of Hungarian Government Bonds (as determined by ÁKK) to the Issuer. Based on the above, in the former case the type of action is so-called ‘classic auction’ and in the latter case is so-called ‘exchange auction’.

The dealers (hereinafter: the “Primary Dealer”) having concluded an agency contract with ÁKK on the placement and trading of government securities may participate directly at the actions. The detailed rules of the participation at the auctions and the conduction of the auctions are contained in the “**Business conditions of the placement of Hungarian Government Bonds at auctions**” Annex A to this Offering Circular (hereinafter: the “Business Conditions”). The names and registered seats of the Primary Dealers are included in Annex B/1 to this Offering Circular.

ÁKK publishes the serial number, the ISIN-code of the Hungarian Government Bonds to be issued, the terms and conditions of the placement of the given series or part of series - including especially the type of auction, and in the case of classic auction the announced amount at the auction, in the case of exchange auction the maximum of the offered amount, the date of the auction and the issuance (performance), the deadline for submitting the bids, the terms and conditions of the interest payment and repayment, the maturity of the securities - in public offering (hereinafter: the “Public Offering”) at least 3 (three) working days prior to the date of the auction.

ÁKK reserves the right to define the final amount of the issuance - in accordance with the provisions of the Business Conditions - on the basis of the received bids.

ADDITIONAL PLACEMENT

The Issuer and ÁKK reserve the right to issue from time to time further government securities incorporating the same rights in all respects - except for the date of placement - as the given series of the Hungarian Government Bonds, which constitute the same series as the given Hungarian Government Bonds series.

PLACEMENT OF GOVERNMENT BONDS AS DEMATERIALISED SECURITIES

Hungarian Government Bonds are issued as dematerialised securities under the authorisation of the Capital Market Act.

The dematerialised Hungarian Government Bond is a data recorded and transmitted electronically in accordance with the Capital Market Act and other laws, registered on a securities account, including in an identifiable manner all constituent requirements - specified by laws - of the securities, except for the name of its owner and the serial number of the

securities. The dematerialised Hungarian Government Bonds are registered for the dealers on the securities accounts held by the KELER Central Depository Ltd. (hereinafter: “KELER”) and for the customers on the securities accounts held by the investment companies (in connection with the application of this Offering Circular including also the credit institutions providing investment services or ancillary services and the Hungarian State Treasury as well).

ÁKK authorises KELER to transfer the amount to be credited to each Primary Dealer, that is to credit on the date of performance the adequate amount of the issued Hungarian Government Bonds on the securities accounts of the Primary Dealers held at KELER, provided that the consideration of the credits (the purchase price or the amount of Hungarian Government Bonds serving as consideration) is available on the account of the given Primary Dealer. The Primary Dealers may then order the crediting of the dematerialised securities on the securities accounts of the dematerialized owners or the authorised account holders. Thereafter the dematerialised Hungarian Government Bonds are registered and traded on the securities accounts.

A dematerialised Hungarian Government Bonds are transferred by debiting and crediting on the securities account.

The investors may enter into securities account and client account contracts with an investment company, as securities account holder - being entitled to the trading of dematerialised securities - selected by them. The general terms of business of the given account holder is applicable regarding the authorisations to be given to the account holder by the investors.

SECONDARY MARKET OF THE HUNGARIAN GOVERNMENT BONDS

The Hungarian Government Bonds are listed on the Budapest Stock Exchange (hereinafter: “BSE”) on the date of the settlement in a simplified procedure in accordance with the contract concluded by and between the Budapest Stock Exchange Ltd. (hereinafter: “BSE”) and ÁKK.

The trading with the Hungarian Government Bonds is proceeded on the Budapest Stock Exchange in accordance with the rules of procedure of BSE. The settlement is due on the second (T+2) working day as from the date of the transaction in accordance with the general terms of business of KELER.

The Hungarian Government Bonds are listed on the multilateral trading system called “MTS Hungary” operated by EuroMTS Limited on the day following the publication of Public Offering preceding the date of the first placement, where the assigned Primary Dealers quote two-way (bid and offer) prices on trading days –5 (five) hours at least on a daily basis – from the day of the first placement.

On the multilateral trading system called “MTS Hungary”, the trading with the Hungarian Government Bonds is proceeded in accordance with the rules and regulations of EuroMTS Limited. Settlement is due on the second business day after the trade (T+2) according to the general terms of business of KELER.

The Hungarian Government Bonds are listed on the regulated market called “Bond Vision Market” operated by MTS SpA on the day of the first placement. On the regulated market

called “Bond Vision Market”, the trading with Hungarian Government Bonds is proceeded in accordance with the regulation of MTS SpA for Bond Vision Market.

The Hungarian State Treasury records daily buying and selling prices in respect of the series of the Hungarian Government Bonds, therefore the Hungarian Government Bonds may also be sold and purchased during maturity in the Treasury offices of the Hungarian State Treasury, in accordance with the provisions of its general terms of business. The address of the Treasury offices of the Hungarian State Treasury is listed in Annex B/2 to this Offering Circular.

PAYMENTS IN CONNECTION WITH GOVERNMENT BONDS

ÁKK performs the tasks of the main paying agent in connection with the Hungarian Government Bonds. (These tasks do not include the paying agent’s tasks provided for in the tax laws.)

ÁKK pays the interests and the repayment (face value) to the investors with the involvement of KELER and the investment companies. At the conclusion of the securities account contract the investor is to provide for the method of payment of the due amounts.

Interest payments

ÁKK pays the interests of the Hungarian Government Bonds registered on securities accounts at KELER on the basis of the registration provided by KELER by transfer to the securities account holders. The issuer and ÁKK are not responsible for the consequences arising from the possible breach of contract by the account holders.

Definition of the interest rate

a.) In case of fixed-rate Hungarian Government Bonds – unless otherwise provided in the public offering – the interest rate to be paid (rounded to 0.01 percent) is defined as detailed below (gross interest percentage or interest rate without tax deductions is to be considered in all cases):

The interest rate to be paid at the first interest payment date:

- if the length of the first interest payment period corresponds with the interest payment frequency ($d_{t1}=d_0$), then

the interest rate to be paid = g_p ,

- if the length of the first interest payment period is shorter than the interest payment frequency ($d_{t1}<d_0$), then

$$\text{the interest rate to be paid} = g_p * \frac{d_1 - d_0}{d_1 - d_{t1}},$$

- if the length of the first interest payment period is longer than the interest payment frequency ($d_{t1}>d_0$), then

$$\text{the interest rate to be paid} = g_p + g_p * \frac{d_{t_1} - d_0}{d_{t_1} - d_{t_0}},$$

where

g_a = annual interest (coupon)

g_p = time proportionate interest in compliance with the interest payment frequency

f = the number of interest payments in one year

$$g_p = \frac{g_a}{f} \text{ (for example in case of half-yearly interest payment } g_p = \frac{g_a}{2} \text{),}$$

d_{t_0} = technical interest payment date, which is to be defined by the deduction of two interest periods from the the date of the first interest payment date

d_0 = the date of the issuance

d_{t_0} = technical interest payment date, which is to be defined by the deduction of one interest period from the the date of the first interest payment

d_1 = the date of the first interest payment

The interest rate to be paid on any further interest payment date:

$$\text{the interest rate to be paid} = g_p$$

b.) *In case of floating-rate Hungarian Government Bonds* - unless otherwise provided in the public offering - the interest rate to be paid (rounded to 0.01 percent) is defined as detailed below (gross interest percentage or interest rate without tax deductions is to be considered in all cases):

- if the product serving as the interest base of the given floating-rate Hungarian Government Bond is the Discount Treasury Bill, or any Discount Treasury Bill related index, other derived product, furthermore any money market product (e.g.: central bank base rate, repo interest, BUBOR etc.), then the interest rate to be paid is the time proportionate part of the annual interest, which is to be defined on the basis of the days effectively passed between the interest payment dates and on the basis of a year of 360 days. In case of a leap year 29 February is also to be considered when counting the days passed,
- if the product serving as the interest base of the given floating-rate Hungarian Government Bond is the consumer price index, then the interest rate to be paid is the submultiples of the annual interest, calculated on the basis of the number of interest payments in a year.

ÁKK performs the tasks in connection with the definition of the interest of the floating-rate Hungarian Government Bonds at the time and in the manner specified in the Public Offering.

Repayment, redemption

The repayment of the face value of the Hungarian Government Bond is due in one amount at maturity, the repayment takes place in accordance with the rules applicable to the interest payment.

The Issuer does not redeem the Hungarian Government Bond before maturity.

Payments due on bank holidays

If the payment of any amount (face value, interest, repayment) in connection with the Hungarian Government Bond is due on a date, which is not a working day in Hungary, the payment date – unless otherwise provided by ÁKK – is the next working day. For this time period the investor is not entitled to further interest, or any further amount.

A days is to be considered as a working day, on which the investment companies are open for public in Hungary, and KELER and the National Bank of Hungary have a settlement date.

TAXATION

In accordance with Act CXVII of 1995 on the Personal Income Tax – which has been amended several times – (“Personal Income Tax Act”) the revenue paid as interest to the private individual on the basis of the Hungarian Government Bonds, as publicly offered and traded securities incorporating a loan relationship as specified in Act CXX of 2001 on the Capital Market, and the part of the revenue - specified in accordance with the rules applicable to capital gain - arising at the transfer, redemption (at maturity) - independently from how it is split between the items cleared as net conversion value and accumulated interest or yield - is to be considered as interest income and is subject to taxation.

At the release date of this Offering Circular, the current tax rate is 15 (fifteen) percent regarding the interest income in accordance with the currently effective provision of the Personal Income Tax Act.

In accordance with the respective provisions of Personal Income Tax Act, the tax on interest income originating from the Hungarian Government Bonds - if the interest revenue

a) derives from the paying agent (meaning also the credit institutions, investment service providers paying the interest income instead of the paying agent) and the paying agent is entitled to tax deduction - it is defined, deducted, paid and submitted by the paying agent for the time of the acquisition, provided that under the conditions specified in the laws the private individual may validate in his tax return prepared without the involvement of the tax authority or by self-inspection that part of the value used for the acquisition of the securities and the additional expenses relating to the securities, which was not considered by the paying agent in the course of the definition of the income;

b) derives from the paying agent, however the paying agent is not entitled to tax deduction (especially in case of sale by way of exchange auction) - the paying agent and the private individual are to proceed in accordance with the rules applicable to the advanced tax and the private individual pays it by the 12th day of the month following the quarter in accordance with the provisions of the relevant tax laws;

c) derives not from a paying agent - the private individual defines it in its tax return prepared without the involvement of the tax authority, and pays it by the deadline set for the submission of the tax return in accordance with the provisions of the applicable tax laws.

The date of acquiring the interest income is the day of the transfer, posting or delivery of the involved amount to the investor.

Specific provisions of the Personal Income Tax Act are applicable to the taxation of the Stock Exchange transactions.

The taxation takes place in accordance with the current tax laws.

The Issuer and ÁKK suggest to the investors having interest in Hungarian Government Bonds to request an expert's opinion on the question how the consequences of purchasing, owning and transferring of the Hungarian Government Bond effect their taxation.

ANNOUNCEMENTS

ÁKK publishes the announcements in connection with the placement of the Hungarian Government Bonds on the website of BSE (www.bet.hu) and on its own websites (www.akk.hu and www.allampapir.hu). If the announcement is not published on the same day on the two websites, the date of publication of the earlier published announcement is considered as the day of publication.

GOVERNING LAW, DISPUTE RESOLUTION

The laws of Hungary - in particular the provisions of the Government Decree No. 285/2001 (XII.26.) on Bonds, the Capital Market Act, and Act V of 2013 on the Civil Code- are applicable to the conditions of the placement of Hungarian Government Bonds.

Any future legal dispute between the Issuer, ÁKK and the owner(s) of the Hungarian Government Bond(s) in connection with legal relationships arising from the Hungarian Government Bond, as securities falls within the competence of ordinary courts.

EFFECT

This Offering Circular enters into effect on 1st June 2018, with the condition that its provisions are applicable to the Hungarian Government Bond series to be issued based on Public Offering announced after such date.

Budapest, 25th May 2018

Annexes:

Annex A: Business conditions
Annex B: List of the dealers

ISSUER

is the Hungarian State, in the name of which the minister responsible for public finances is entitled to act.

The minister responsible for public finances exercises this power via the Government Debt Management Agency Private Company Limited by Shares (registered seat: 1027 Budapest, Csalogány u. 9-11.).

**BUSINESS CONDITIONS OF PLACEMENT
OF HUNGARIAN GOVERNMENT BONDS AT AUCTIONS**

These Business Conditions for auctions specify the terms and conditions of the sale of the Hungarian Government Bonds at actions, issued by the Hungarian State (hereinafter: the “Issuer”) and the rules of procedure of the auction.

All participants are obliged to observe the effective laws, in particular the provisions of Act CXX of 2001 on the Capital Market (hereinafter: the “Capital Market Act”) and Act LVII of 1996 on the Prohibition of Unfair and Restrictive Market Practices, and act in accordance with transaction customs and fair competition in the course of the auction.

1. General provisions

1.1. The Issuer places the Hungarian Government Bond at auctions announced by the Government Debt Management Agency Pte Ltd. (hereinafter: “ÁKK”). The type of the auction is classic auction or exchange auction, depending on whether the consideration of the issued Hungarian Government Bonds is paid in cash (classic auction), or by transferring to the Issuer the ownership free from any lawsuits, encumbrances, claims or any other restrictions of a determined number of Hungarian Government Bond(s) of series - specified by ÁKK in advance - other than the series of the issued Hungarian Government Bonds (exchange auction).

1.2. The Hungarian Government Bonds series are issued and marketed by the Issuer as dematerialised securities.

1.3.1. The auctions take place on the so-called board of auction (hereinafter: the “Board of Auction”) operating in the frame of the MMTS1 trading system (hereinafter: the “Trading System”) operated by the Budapest Stock Exchange Ltd. (hereinafter: “BSE”). The operation and use of the Board of Auction is contained in the current regulation of the BSE on Auction trading rules applicable on the Board of Auction in Trading System MMTS1 (currently the Decision 426/2015 of the CEO of BSE; the respective effective regulation hereinafter: “Rules of the BSE on the Auction trading”).

1.3.2. The capitalised terms in these Business Conditions - unless specifically provided otherwise - have the meaning specified in the regulation titled “Rules of the BSE on the Auction trading”.

1.3.3. Regarding the issues not specified in these Business Conditions the provisions of the regulation titled “The rules of the BSE on the Auction trading” applicable to the Board of Auction - including also the possible further rules of procedure referred to therein - and the applicable Hungarian laws are to be applied.

1.4. The dealers having entered into an agency contract with ÁKK regarding the placement and trading of the government securities issued by the Hungarian State (hereinafter: the

“Primary Dealers”) may directly participate at the auction. The Primary Dealers participating at the auction undertake to put out the Offering Circular of the Hungarian Government Bonds - together with its annexes - in the customer area of their sales branches and to provide the investors with them for review.

1.5. The Primary Dealers participating at the auction are to certify the authenticity of the offers and data submitted at all times to the Trading System and via fax by a single authorised signature of the statement in accordance with Annex 2 of these Business Conditions. The regulation titled “Rules on Technical Connection in Book IV of General Terms and Conditions of Stock Exchange” of BSE (hereinafter: the “Rules of Technical Connection”) as effective respectively and provides for the rules of operation of the Trading System and the rights and obligations of the operator, which are to be observed by the Primary Dealers.

1.6.1. In the case of classic auction the ÁKK publishes the Public Offering on the website of BSE (www.bet.hu) and on its own websites (www.akk.hu and www.allampapir.hu), wherein it announces - in particular - the series, type, ISIN-code, maturity of the government bond to be marketed at the auction, the commencement date of the interest bearing, the terms and conditions of sale, including the type of the auction, the date of the auction, the amount announced for sale at the auction (hereinafter this is to be considered as the announced amount), the deadline for performance, the interest rate, the terms and conditions of interest payment and redemption and the customers of the bonds. In the case of classic auction the given government bond’s series, the announced amount, the date of the auction and the settlement date is announced on the day of the auction on the Board of Auction of the Trading System.

1.6.2. In the case of exchange auction ÁKK publishes the Public Offering on the website of BSE (www.bet.hu) and on its own website (www.akk.hu), wherein it publishes - in particular - the series, type, ISIN-code, maturity of the government bond to be sold at the auction, the commencement date of interest bearing, the terms and conditions of sale, including the type of the auction, the date of the auction, the maximum offered amount (as defined in Section 1.7.2) the series of the Hungarian Government Bond serving as source bond, the deadline for the settlement, the interest rate, the terms and conditions of interest payment and redemption, and the eligible purchasers of the bonds. In the case of exchange auction the price of the Hungarian Government Bond(s) in different series than the series of the Hungarian Government Bond(s) to be sold, and to be transferred in exchange for the Hungarian Government Bond(s) to be sold is to be specified by ÁKK in accordance with the rules of a specific procedure and is announced on the day of the auction. In case of an exchange auction the series of the government bond to be sold at the auction, the series of the government bond serving as source bonds, the announced amount, the date of the auction and the settlement date is published on the day of the auction on the Board of Auction of the Trading System.

1.7.1. In the case of classic auction ÁKK reserves the right to deviate from the announced amount and to specify the amount to be offered for sale at the auction on the day of the auction at the latest (hereinafter this is to be considered as the offered amount in case of a classic auction), which may result in the amendment of the announced amount by maximum ± 50 percent in case the announced amount does not exceed HUF 20,000,000,000 that is twenty billion Hungarian forints, and in the amendment of the announced amount by maximum ± 34 percent in case the announced amount exceeds HUF 20,000,000,000 that is twenty billion Hungarian forints.

1.7.2. In the case of exchange auction ÁKK reserves the right to specify in advance the maximum amount to be sold effectively at the auction (hereinafter this is to be considered as the maximum offered amount) and to accept the valid bids received for the auction only up to this amount.

1.7.3. ÁKK reserves the right to declare the auction ineffective on the basis of the received bids. In case of an ineffective auction the total amount of the bids is rejected.

1.8. ÁKK reserves the right to increase the amount issued in the course of the placement with the maximum of 100 percent of the amount accepted at the auction for the purposes of market maintenance and trading in the Treasury offices of the Hungarian State Treasury. The publication of the final amount of the issuance takes place subsequent to the auction in accordance with Section 4. of these Business Conditions.

1.9. The settlement of the Hungarian Government Bond auctions is due on Wednesday of the week following the auction unless otherwise provided by ÁKK.

2. Rules for submission of the bids

2.1. In accordance with Subsection (1) of Section (47) of the Capital Market Act in the course of the placement, the auction purchase offer statement of the investor regarding the acquisition of the Hungarian Government Bond is only valid in the form of a written, printed or electronic document fixed with qualified electronic signature with the content specified by the relevant laws, and submitted through the Trading System, as the trading system approved by NBH as supervisory authority, which may be submitted or forwarded in total on the Board of Auction to ÁKK in the form specified by the Trading System and by observing the specified substantive requirements.

The auction is held with a non-public Order Book.

2.2. The Primary Dealer is obliged to check by 10.00 a.m. on the day of the auction that the Board of Auction used by it is functioning. The Primary Dealer is obliged to report in writing to ÁKK by the below time the fact of the breakdown of the Board of Auction specified in the Rules of Technical Connection of BSE, if the breakdown cannot be fixed by 10.15 a.m. Subsequent to the receipt of the written report on the breakdown by ÁKK the concerned Primary Dealer may submit its bid in the form in accordance with Annex 1 of these Business Conditions by fax (fax number: 488-9425) or delivery in person in the official room of ÁKK (1027 Budapest, Csalogány u. 9-11., floor V., room 514.) on the day of the auction by 10.35 a.m. The bids submitted in the above way are registered by ÁKK into the register. Those bids are considered as received by ÁKK which have been fixed with the impression of the document receiver used and authenticated by ÁKK. The impression of the document receiver indicates the time, when the bidder delivered its bid to the agent of ÁKK. If the Primary Dealer is not able to connect to the Trading System on its installed workstation, the bid(s) delivered by the Primary Dealer as described above are to be registered by ÁKK on behalf of the Primary Dealer into the Trading System, whereby the Primary Dealer is bound during the time period open for the bids specified in Sections 2.7. and 2.8. of these Business Conditions. The Primary Dealer is obliged to inform ÁKK in writing regarding the cause of the breakdown of the Board of Auction within 8 days as from the occurrence of the failure.

2.3. If the Board of Auction of the Trading System operated by BSE is non-functioning by 10.00 a.m. of the day of the auction, the Primary Dealer may deliver its offer by fax or delivery in person in the form complying with Annex 1 of these Business Conditions by 11.00 a.m. of the day of the auction. ÁKK performs the evaluation of this bids, the conduction of the auction in its self developed auction system (the evaluation system of which corresponds at all times with the Board of Auction of the Trading System) in compliance with the relevant provisions of these Business Conditions, and prepares certificates regarding the accepted bids, which may be received by the authorised representatives of the Primary Dealers as from 15.00 p.m. of the day of the auction in the official room of ÁKK.

2.4. The bids have to be submitted at the auctions by number considering the face value of HUF 10,000, one bid can be submitted for minimum 100, that is one hundred Hungarian Government Bonds with the face value of HUF 10,000 (for the face value of HUF 1,000,000, that is one million Hungarian forints).

2.5. The bids submitted through the Board of Auction of the Trading System have to include the series and the amount of the Hungarian Government Bonds intended to be purchased, and in case of fixed-rate government bonds indicating the expected net price up to maximum four decimal places, or the yield up to maximum two decimal places, and in case of floating-rate government bonds indicating the expected net price up to maximum two decimal places. If the auction is evaluated by ÁKK in the case described in Section 2.3 of these Business Conditions the auction bid is to include the expected net price at all times - in case of fixed-rate government bonds indicating up to maximum four decimal places, and in case of floating-rate government bonds indicating up to maximum two decimal places - and the evaluation takes place on the basis of this in all cases.

2.6. The bids made on behalf of clients and those of own-account have to be submitted separately. In case of a bid of own-account the 0999-99999-H account type, and in case of a bid made on behalf of clients the 0999-9999999 account type has to be indicated. (If a different account type is indicated by the bidder, ÁKK considers the submitted bid as a bid of own-account.) On the bids delivered by fax or delivery in person the letter "S" has to be used to indicate a bid of own-account, and the letter "Ü" has to be used to indicate a bid made on behalf of the client.

2.7. The auction has a competitive and a non-competitive phase. In the competitive phase of the auction only bids indicating prices and yields can be submitted between 10.00⁰⁰ and 10.49⁵⁹ a.m. of the day of the auction. During the period of the competitive phase specified for bids collection the submitted competitive bids may be freely withdrawn or amended. The system-timer of the Trading System is governing all deadlines in connection with the Board of Auction.

2.8. In the non-competitive phase of the auction each Primary Dealer may submit bids for the minimum face value of HUF 1,000,000, that is one million Hungarian forints, and the maximum face value of HUF 200,000,000, that is two hundred million Hungarian forints, and if the announced amount exceeds HUF 41,000,000,000, that is forty billion Hungarian forints, then for the maximum face value of HUF 500,000,000, that is five hundred million Hungarian forints, without indicating any price or yield. The so-called non-competitive bids indicating no prices or yields can be submitted between 10.50⁰⁰ and 10.59⁵⁹ a.m. of the day of

the auction. During the period of the non-competitive phase specified for bid collection the submitted non-competitive bids may be freely withdrawn or amended.

2.9. In the case of classic auction ÁKK checks all bids after closing the competitive phase of the auction, however prior to the evaluation of the bids, by 11.00⁰⁰ at the latest, in order to eliminate in time the out-of-market bids significantly and for the investors adversely effecting the results of the auction. Those bids are to be considered as out-of-market bids, whereof yields or prices differ with minimum forty (40) basis points from the base yield calculated from the submitted bids in accordance with Annex 3 to these Business Conditions in case of fixed-rate bonds, and with minimum forty (40) basis points from the base yield calculated in accordance with Annex 4 to these Business Conditions in case of floating-rate bonds. ÁKK reserves the right to review the extent of such difference terminally and amend it subject to the market conditions.

If ÁKK detects the submission of the above described out-of-market bid by any of the Primary Dealers, it requests - on phone - without delay the concerned Primary Dealer to withdraw its bid. Upon the request of ÁKK the Primary Dealer is obliged to withdraw its submitted bid considered as out-of-market. If the Primary Dealer does not fulfil its obligation to withdraw such bid, this is considered as an event significantly distracting the auction, and leads to the consequences specified in Section 6.1. of these Business Conditions.

Subsequent to informing on the phone the Primary Dealer submitting the out-of-market bid, ÁKK notifies all Primary Dealers through the Trading System of the fact of the submission of an out-of-market bid, the repeated opening of the Board of Auction of the Trading System and the time of such opening. After closing the non-competitive phase of the auction, however by 11.15⁰⁰ at the latest, ÁKK repeatedly opens the competitive phase of the auction, when exclusively the bid considered as out-of-market can be deleted by the Primary Dealer submitting the out-of-market bid. In the course of such re-opening of the Board of Auction such Primary Dealer may not execute any other transaction then the deletion, and other Primary Dealers may not execute any transactions at all. The breach of this rule by any Primary Dealer is considered as an event significantly distracting the auction, and leads to the consequences specified in Section 6.1 of these Business Conditions.

If the same Primary Dealer repeatedly submits an out-of-market bid, this is considered as an event significantly distracting the auction, and leads to the consequences specified in Section 6.1 of these Business Conditions.

ÁKK expressly reserves the right to suspend the application of the provisions of this Section.

2.10. The bids, which have been submitted incompletely or incorrectly, and the bids arriving after the specified times, furthermore in the case of classic auction the out-of-market bids specified in Section 2.9 of these Business Conditions in case of a classic auction are not accepted by ÁKK, thus such bids are not included in the auction.

3. The criteria of the evaluation of the auction

3.1. The evaluation of the submitted bids takes place in all cases on the basis of a price of four decimal places. The Primary Dealer is bound to its auction bid after the closing of the periods

of bids collection specified in Sections 2.7 and 2.8 of these Business Conditions until its bid is not rejected, or partially or wholly accepted by ÁKK.

3.2. In the course of the evaluation the bids submitted by the same Primary Dealer on the same price or yield levels, such as the bids of own-account and those made on behalf of the clients are to be considered as separate bids.

3.3.1. In the case of classic auction, if the amount of the valid bids submitted at the auction reaches or exceeds the amount announced for sale at the auction, the bids on the Board of Auction of one bidder are taken into consideration starting from the bid with the highest expected price up to maximum 50 percent of the amount - calculated on face value - offered for sale at the auction.

3.3.2. In the case of exchange auction, if the amount of the valid bids submitted at the auction reaches or exceeds the maximum offered amount, the bids on the Board of Auction of one bidder are taken into consideration starting from the bid with the highest expected price up to the value – calculated on face value – of the maximum offered amount.

3.4. If the amount of the valid bids submitted at the auction does not reach

(i) the amount announced for sale at the auction in the case of classic auction,

the valid bids of the bidder exceeding 50 percent of the amount to be sold at the auction are continued to be satisfied starting from the bid with the highest expected price. These bids may be accepted - following the satisfaction of all non-competitive bids - until the amount of the Hungarian Government Bonds offered for sale at the auction are not sold.

The same rule applies in case the amount of the valid bids exceeds the announced amount, however the total amount of the bids to be taken into account in the course of the evaluation is below the announced / maximum offered amount due to the application of the limit of 50 percent specified in Section 3.3.1.

(ii) the maximum offered amount in the case of exchange auction,

the valid bids of the bidder are satisfied starting from the bid with the highest expected price – following the satisfaction of all non-competitive bids - up to the amount specified in Section 3.3.2.

3.5. Under Section 3.3.1. of these Business Conditions the following bidders are to be considered as one bidder, if one of them has such a direct or indirect ownership in the other that ensures a voting right of over 10 percent, or if they have a direct or indirect owner that has voting rights of over 50 percent in both bidders. Upon the request of ÁKK the bidder is obliged to make a written statement regarding its ownership structure, and gives its consent to have it checked by ÁKK.

3.6. The non-competitive bids are accepted on the weighted AVG price and yield of the competitive bids accepted at the auction.

3.7. If the amount of the valid bids exceeds the amount of the Hungarian Government Bonds offered for sale at the auction, the remaining government bonds are distributed among the bids competing on the price level relating to the accepted amount on the basis of the **principal of**

proportionate distribution. (On the basis of the base face value, the remaining Hungarian Government Bonds are accepted among the bids competing on the price level relating to the accepted amount in the proportion of the offered face value. The incidentally remaining amount is credited on the account of the Issuer.)

3.8. The evaluation of the auction bids takes place by means of sorting performed by the Board of Auction on the basis of their expected price. The valid bids, started from the bid with the highest price - considering the provisions of Sections 3.2. - 3.7. of these Business Conditions - are accepted until the amount of the government bonds offered for sale is not sold. The non-competitive bids precede the bids with yield or price indication. On the basis of the accepted bids the sale takes place on the price indicated by the bidder, and on the average price specified in Section 3.6. of these Business Conditions in case of non-competitive bids.

3.9. The formula for calculating the net purchase price relating to the accepted bid(s) is following:

Net purchase price = net price*face value/100

3.9.1. The formulas applied for the price calculation of the **fixed-rate Hungarian Government Bonds**:

Gross price:

$$\text{Gross price} = \sum_{i=1}^n \frac{F_i}{(1 + T_p)^{pi + \frac{nb}{w}}}$$

where:

F_i= the i cash flow item of the bond (i=1,2,3...n-1: the i interest payment, i=n: the last interest payment and redemption).

g = annual coupon

f= the number of interest payments annually

calculation of the value of F_i, if i>1

$$F_i = \frac{g}{f}, (i=1,2,3...n-1)$$

$$F_n = \frac{g}{f} + 100$$

calculation of the value of F_i is carried out as described in 'PAYMENTS IN CONNECTION WITH GOVERNMENT BONDS' of the Offering Circular, if i=1,

the calculated value of F_i is to be defined - unless otherwise provided in the Public Offering - by rounding it up to two decimal places in all cases.

T_a= annual yield to maturity

T_p= yield calculated for a maturity corresponding with the length of the interest payment period

$$T_p = \sqrt[f]{1 + T_a} - 1, \text{ and } T_a = (1 + T_p)^f - 1$$

n= the number of the remaining cash flow items on the settlement date

d_i= the payment date (interest payment and redemption) of the i cash flow item

d_s= the settlement date

d₀= the issue date

d_{t0}= technical interest payment date, which is to be defined by the deduction of two interest periods from the date of the next interest payment date

d_{t1}= technical interest payment date, which is to be defined by the deduction of one interest period from the date of the next interest payment

p_i= integer number (0,1,2...n), the number of interest payments between the settlement date (d_s) and the date of F_i(that is d_i). If the settlement date is prior to the first interest payment, furthermore there is a technical interest payment date between the settlement date and the next (first) interest payment date (d_{t1}), then all p_i value is increased by 1. (For example p₁=1, p₂=2 etc.)

nbc = the number of days between the settlement date and the next interest payment date (nbc=d₁-d_s). If the settlement date is prior to the first interest payment, furthermore there is a technical interest payment date between the settlement date and the next interest payment date (d_{t1}), then

$$nbc = d_{t1} - d_s$$

w= the number of days in the current interest payment period. In base case the number of days between the next interest payment and the previous interest payment (w=d_i-d_{i-1}).

If the settlement date is prior to the first interest payment, furthermore there is a technical interest payment date between the settlement date and the next interest payment date (d_{t1}), then the value of w is:

$$w = d_{t1} - d_{i0}$$

If the settlement date is prior to the first interest payment, furthermore there is no technical interest payment date between the settlement date and the next interest payment date, then the value of w is:

$$w = d_1 - d_{i1}$$

Accrued interest:

If the settlement date (d_s) is prior to the first interest payment date (d₁),

a) and d₀ >= d_{t1}, then

$$\text{accrued interest} = \frac{g}{f} * \frac{d_s - d_0}{d_1 - d_{t1}}$$

b) and $d_0 \leq d_{t1}$, however $d_s \leq d_{t1}$

$$\text{accrued interest} = \frac{g}{f} * \frac{d_s - d_0}{d_{t1} - d_{t0}}$$

c) and $d_0 \leq d_{t1}$, however $d_s > d_{t1}$

$$\text{accrued interest} = \frac{g}{f} * \left(\frac{d_{t1} - d_0}{d_{t1} - d_{t0}} + \frac{d_s - d_{t1}}{d_1 - d_{t1}} \right)$$

In all other cases:

$$\text{Accrued interest} = \frac{g}{f} * \frac{d_s - d_{i-1}}{d_i - d_{i-1}}$$

$$\text{Net price} = \text{Gross price} - \text{Accrued interest}$$

3.9.2. The formulas applied in the course of the definition of the gross price of **the floating-rate Hungarian Government Bonds**:

$$\text{Gross price} = \text{Net price} + \text{Accrued interest}$$

Accrued interest:

- If the product serving as the interest base is the Discount Treasury Bill, or any index connected to the Discount Treasury Bill, other derived product, furthermore any money market product (e.g.: central bank base rate, repo interest, BUBOR etc.):

$$\text{Felhalmozott_kamat} = g \times \frac{d_s - d_0}{360}$$

- **If the product serving as the interest base is the consumer price index:**

$$\text{Felhalmozott_kamat} = \frac{g}{f} \times \frac{d_s - d_0}{d_1 - d_0}$$

In cases in the above sections, if the payable interest rate for the relevant interest period of the given Hungarian Government Bond is zero, then the value of the accrued interest is also zero for the days within the given interest period.

3.10.1. In the case of classic auction ÁKK accepts non-competitive bids only up to 50 percent of the amount offered for the auction sale. If the amount of the non-competitive bids exceeds 50 percent of the amount offered for the auction sale, the government bonds amount

amounting up to 50 percent of the amount offered for the auction sale is to be distributed among the non-competitive bids on the basis of the principal of proportionate distribution.

3.10.2. In the case of exchange auction ÁKK accepts non-competitive bids only up to 50 percent of the maximum offered amount. If the amount of the non-competitive bids exceeds 50 percent of the maximum offered amount, the quantity of government bonds amounting up to 50 percent of the amount offered for the auction sale are to be distributed among the non-competitive bids on the basis of the principal of proportionate distribution.

3.11. In the case of exchange auction the calculation of the amount of the Hungarian Government Bonds - of a different series than the series of the Hungarian Government Bond(s) to be marketed - related to the accepted bid(s), to be transferred in exchange for the Hungarian Government Bond(s) to be sold takes place on the basis of the below formula:

Amount of the Hungarian Government Bonds serving as source bonds (number) =

= the amount of the Hungarian Government Bonds accepted by ÁKK from the given bid (number) X the gross price of the given bid /the gross price of the Hungarian Government Bonds serving as source bonds specified in accordance with Section 1.6.2. of these Business Conditions.

The amount calculated as consideration in accordance with the above is rounded to the closest integer number in accordance with the general rules of rounding.

4. Announcement of the allotment results, information

The Primary Dealers having bids which have been accepted at the auction receive a confirmation - save the case specified in Section 2.3. of these Business Conditions - regarding their accepted bids and the prices of such bids through the Trading System at 11.30⁰⁰a.m. on the day of the auction. ÁKK publishes the information regarding the accepted bids submitted for the auction - including the accepted amount, the final amount of the placement, the accepted maximum, minimum and average price and yield - through press release and electronic medium (currently: Reuters, Bloomberg) and on its website (www.akk.hu).

5. Settlement, crediting on the securities accounts

5.1. Settlement of the classic auction

5.1.1. The settlement of the financial consideration of the accepted bids (the net price increased with the accrued interest) calculated on gross price takes place in accordance with the provisions of the General Terms of Business of KELER and the related Rules of Procedure applicable to primary market transactions. Accordingly the purchase prices of the Hungarian Government Bonds calculated in accordance with the above are settled on the date of financial settlement by debiting the bank accounts held at KELER of the investment companies submitting the bids, and the account of the commercial bank held at NBH - following the check of funds - and crediting the unified treasury account. (The Primary Dealers have to submit a statement regarding the number of the bank account to be debited.

This may only be amended upon the prior written notification of ÁKK.) Simultaneously with the debiting of the bank accounts KELER credits the Hungarian Government Bonds on the respective accounts of the Primary Dealers.

5.2. Settlement of the exchange auction

5.2.1. The settlement of the Hungarian Government Bond amounts to be transferred in exchange for the value (the net price increased with the accrued interest) of the accepted bids calculated at gross price takes place in accordance with the provisions of the General Terms of Business of KELER and the related Rules of Procedure applicable to DVD type securities account transfers. Accordingly the Hungarian Government Bond(s) to be marketed and the Hungarian Government Bond amounts to be given in exchange are settled on the date of settlement by debiting the securities accounts held at KELER of the investment companies submitting the bids - following the examination of the cover - and crediting the securities account held at KELER in favour of the Issuer. (The Primary Dealers have to submit a statement regarding the number of the securities account to be debited, if they intend to use a securities account at the exchange auction other than that used at the classic auction. This may be amended only upon a prior written declaration sent to ÁKK.) Simultaneously with the debiting of the securities accounts KELER credits the Hungarian Government Bonds to be marketed on the respective accounts of the Primary Dealers.

5.3. General provisions

5.3.1. The Issuer and ÁKK are not responsible for the damages and other consequences arising from the late performance of the Primary Dealer's client to the Primary Dealer.

5.3.2. If the settlement does not take place due to inadequate funds, the not performed items - at the original price, without interest on late payments - are automatically included by KELER in its settlement system within 3 working days as from the settlement date. KELER informs ÁKK on the actual settlement day, and ÁKK defines the amount of default interest accordingly. The default interest rate is twice the actual central bank base rate. The Primary Dealer is obliged to pay the interest on late payments on the basis of the notification sent by ÁKK to the "Revenues from forint debts" account of the Treasury, number 10032000-01031403.

5.3.3.1. If in the case of classic auction the unsecured transaction is not completed within 3 working days as from the settlement, ÁKK considers as the bidder having cancelled the transaction. For the case of cancellation ÁKK stipulates a penalty amounting to 10 percent of the unpaid purchase price increased with the interest on late payments, which is to be paid within 8 days, upon the notification of ÁKK to the account number indicated in the notification.

5.3.3.2. If in the case of exchange auction the uncovered transaction is not completed within 3 working days as from the settlement, ÁKK considers as the bidder having cancelled the transaction. For the case of cancellation ÁKK stipulates a penalty amounting to 10 percent of the value of the Hungarian Government Bond amount serving as consideration calculated at gross price defined in Section 1.6.2. of these Business Conditions increased with the interest on late payments, which is to be paid within 8 days, upon the notification of ÁKK to the account number indicated in the notification.

5.3.4. In case of non-performance of the payment or securities transfer obligation ÁKK disqualifies the bidder from the participation at the auction until the actual performance, however for a minimum of 3 months.

6. Other provisions

6.1. ÁKK may suspend the participation at the auction of those participants for a period of 3 months at the most, who have significantly distracted the order of the auction.

In particular the following events are considered as significantly distracting the order of the auction:

- a) insider trading, market influence prohibited by the Capital Market Act or other applicable laws, or any other conduct, which is capable of the unfair influence of the yields evolved at the auction;
- b) malicious, concerted practices of several participants, which are capable of the unfair diversion of the market yields.

6.2. In case of regular occurrence of the acts described in Section 6.1. ÁKK may disqualify from the participation at the auction the concerned participant for 1.5 year at the most.

DESCRIPTION OF THE METHOD FOR CALCULATING THE BASE YIELD/PRICE IN CONNECTION WITH THE PLACEMENT OF HUNGARIAN GOVERNMENT BONDS AT CLASSIC AUCTIONS

The purpose of the method is to eliminate the out-of-market auction bids in accordance with an algorithm specified in advance and blocking case by case decisions, in order to eliminate those bids from the evaluation, which are capable to unduly divert the final results of the auction and thereby to disturb the market judgement of the investors and the market participants. The method seeks to calculate such a base yield/price calculated from the bids submitted at the classic auction, which serves as a base with appropriate reference to the application of the method specified in Section 2.9 of the auction Business Conditions for the definition of the yield/price range to be taken into account in the course of the evaluation of a classic auction.

The definition of the base price takes place in all cases after closing the competitive phase of the classic auction, however prior to the commencement of the allocation. All bids submitted with yield or price indication are included in the evaluation however the non-competitive bids are naturally excluded.

The calculation of the base yield/price takes place as described below:

As a first step ÁKK sorts the bids into ascending order starting from the bid with the lowest yield/price. The difference between the consecutive yield/price levels - indicated in the bids - is then defined. Groups are formed on the basis of the differences between the individual yield/price levels. Those bids will belong to one group, the difference between the indicated yield/price levels of which does not exceed 30 basis points (0.30 percent). Hereinafter the term used for the bids belonging to the same group is *maturity*.

All maturities are separate. The longest maturity is then specified. (Logically most of the bids will belong here.) The *base yield/price* is given by the calculation of the arithmetic means of the bids belonging to this longest maturity. By adding or subtracting the value - regarding the non-market bids - defined in Section 2.9 of the auction Business Conditions to or from the base yield/price, the *acceptance range* is designated, on the basis which the non-market bids can be excluded.
